No portion of a net operating loss shall be carried back against net profits of any prior year.

Village of Ansonia, Ohio
Income Tax Rules and Regulations

a. Losses from operation of business, profession or any other type of unincorporated entity are not deductible against employee earnings (as reported on W-2 or 1099-Misc), but may be carried forward as set forth herein. However, if a taxpayer is engaged in two or more taxable business activities to be included in the same return, the net loss of one unincorporated business activity (except any portion of loss separately reportable for municipal tax purposes to another taxing entity) may be used to offset the profits of another for purposes of arriving at overall net profits.

b. Losses recognized shall be the actual loss sustained in a given year. No passive losses as allowed for federal tax purposes will be recognized for city purposes.

2. In the event net profits are apportioned both within and without this municipality, the portion of net operating loss sustained shall be apportioned to this municipality in the same manner as provided herein for apportioning net profits to this municipality. The portion of net operating loss to be carried forward shall be determined in the year the net operating loss is sustained, on the basis of the apportionment factors applicable to that year. The same method of accounting and apportionment must be used in the year to which an operating loss is carried as was used in the year in which the operating loss was sustained.
3. In the case of fiscal years beginning prior to the effective date of the ordinance, the net operating loss deduction will be that portion of the operating loss that the number of months of the fiscal year after the effective date of the ordinance bears to the total number of months in such fiscal year.
4. A short fiscal year (a fiscal year of less than twelve (12) months) brought about by a change in accounting period, where a new taxpayer selects a short fiscal year, or where a new taxpayer operates in this municipality for less than his full accounting period, shall be considered as a full taxable fiscal year for purposes of loss carry-forward.
5. In any return in which a net operating loss deduction is claimed, a schedule should be attached showing:
 - a. Year in which net operating loss was sustained.
 - b. Method of accounting and apportionment used to determine portion of net operating loss apportioned to this municipality.
 - c. Amount of net operating loss used as a deduction in prior years.
 - d. Amount of net operating loss claimed as a deduction in current year.
6. The net operating loss of a taxpayer that loses its identity through merger, consolidation, etc., shall not be allowed as a carry forward loss deduction to the surviving business entity.

7. In the case of a net operating loss sustained by taxpayers filing a consolidated return, see Article III, paragraph D.

D. Consolidated Returns:

1. Consolidated returns may be filed by a group of corporations who are affiliated through stock ownership provided such group files consolidated returns for federal income tax purposes. For a subsidiary corporation to be included in a consolidated return 80% of its stock must be owned by the other members of the affiliated group. A consolidated return must include all companies which are so affiliated in accordance with IRS regulations.
2. Once a consolidated return has been filed for any taxable year, the consolidated group must continue to file consolidated returns in subsequent years unless:
 - a. Permission in writing is granted by the Administrator to file separate returns.
 - b. A new corporation other than a corporation created or organized by a member of the group has become a member of the group during the taxable year.
 - c. A corporation member of the group is sold or exchanged. Liquidating a corporation or merging one of the corporations of the group into another will not qualify the group for filing separate returns.
3. If a corporation becomes a member of the group during the taxable year the consolidated return must include the income for the entire taxable year of the common parent corporation and any subsidiaries which were members of the group for the entire year, plus the income of each subsidiary which becomes a member of the group during the year for the period beginning with the date it became a member of the affiliated group. For the period prior to the time any subsidiary became a member, separate returns must be filed for that subsidiary. When a subsidiary ceases to be a member of the affiliated group, the consolidated return must include the income of such subsidiary for the period during which it was a member of the group, but for the period after it ceases to be a member, separate returns must be filed. If a corporation has been a member of the affiliated group for less than one month of the taxable year of the group, it may be considered as not being part of the group. Similarly, a subsidiary may be considered as being a member of the affiliated group during the entire taxable year of the group if the period during which it was not a member of the group does not exceed one month.

If a subsidiary is a member of the consolidated group for only part of a taxable year, the income considered to be earned in such fractional part of the year shall be that portion of the net income for the entire year which the number of days it was a member of the group bears to the total number of days in the taxable year.

4. In determining the apportionment fraction where a corporation becomes a member of the group or ceases to be a member of the group during the taxable year, the property fraction (Step 1 of the formula) shall be determined on the basis of the original cost of the property during the period such corporation was a member of the group. The real portion of the fraction, however, shall be computed at 8 times the annual rent. The gross receipts and wages shall be based on the actual figures.

Village of Ansonia, Ohio
Income Tax Rules and Regulations

5. All subsidiary corporations must agree in writing to the filing of the consolidated return as they will be liable for the tax as well as will be the parent corporation.
 6. The net operating loss carryover of a corporation which filed a separate return in a prior year may be carried over to the consolidated return but will be limited in amount to the amount of that same corporation's net income included in the consolidation. The net operating loss carry over from a separate year shall be deducted first before application of the apportioned fraction. After application of the apportioned fraction the consolidated net operating loss carryover apportioned to this municipality shall be allowed.
 7. In consolidating the net income, the taxable income of each corporation shall be computed in accordance with the provisions governing the taxable income of separate corporations except that there shall be eliminated unrealized profits and losses in transactions between members of the affiliated group.
 8. In determining expenses that are not allowable because they are apportioned to non-taxable income, such calculations shall be based on the consolidated net income. As an example, inter-company dividends which are eliminated in the consolidation will not be taken into consideration in determining non-taxable income.
- E. Capital gains from the sale of depreciable property shall be taxable to the extent of the aggregate amount of depreciation taken on such property for this municipalities income tax purposes. The taxable amount shall be the ordinary portion recognized on Federal Form "4797, Sales of Business Property". Only losses sustained in prior years on such property shall apply against any gain.

ARTICLE VI

COLLECTION OF TAX AT THE SOURCE

A. Duty of Withholding.

Village of Ansonia, Ohio
Income Tax Rules and Regulations

1. Except as otherwise provided herein, it is the duty of each employer within or doing business within this municipality, who employs one or more persons whether as an employee, officer, director or otherwise, to deduct each time any compensation is paid the tax of one percent (1%) from:
 - a. The qualifying wages, bonuses, incentive payments, severance payments, fees, commissions or other forms of compensation paid to residents of this municipality, regardless of the place where the service is rendered; and
 - b. All compensation paid non-residents for services rendered, work performed or other activities engaged in within this municipality.
 - c. An employer is liable for the payment of the tax required to be deducted and withheld, whether or not such tax, in fact, has been withheld.
2. All employers within or doing business within this municipality are required to make the collections and deductions specified in this article, regardless of the fact that the services on account of which any particular deduction is required, as to residents of this municipality, where performed outside this municipality.
3. Employers who do not maintain a permanent office or place of business in this municipality, but who are subject to tax on net profits attributable to this municipality, under the method of apportionment provided for in the ordinance, are considered to be employers within this municipality and subject to the requirement of withholding.
4. The mere fact that the tax is not withheld will not relieve the employee of the responsibility of filing a return and paying the tax on the compensation paid. If the employer has withheld the tax and failed to pay the tax withheld to the Administrator, the employee is not liable for the tax so withheld. In such cases, this municipality will not process any employee claims of refund or overpayment until the employer pays the tax withheld.
5. Commissions and fees paid to professional men, brokers and others who are independent contractors, and not employees of taxpayer, are not subject to withholding or collection of the tax at the source. Such taxpayers must in all instances file a declaration and return and pay the tax pursuant to the provisions of the ordinance and Articles V and VII of the regulations.
 - a. The commissions and fees paid to those individuals as independent contractors and as unincorporated entities by an employer shall report to the administrator the name, address, social security number and total amount paid if said amount is in excess of six hundred dollars (\$600.00). This return shall be considered a required return and shall be subject to the penalty as described under Section 10(B)(3) of the ordinance.
6. Where a non-resident receives compensation for personal services rendered or performed partly within and partly without this municipality, the withholding employer shall deduct, withhold and remit the tax on that portion of the

Village of Ansonia, Ohio
Income Tax Rules and Regulations

compensation which is earned within this municipality in accordance with the following rules of apportionment:

- a. If the non-resident is a salesman, agent or other employee whose compensation depends directly on the volume of business transacted or chiefly effected by him, the deducting and withholding shall attach to the portion of the entire compensation which the volume of business transacted or chiefly effected by the employee within this municipality bears to the total volume of business transacted by him within and outside this municipality.
- b. The deducting and withholding of personal service compensation of other non-resident employees, including officers of corporations, shall attach to the proportion of the personal service compensation of such employee which the total number of his working hours within this municipality is of the total number of working hours.
- c. The fact that non-resident employees are subject to call at any time does not permit the apportionment of pay for time worked within this municipality on a seven-day per week basis. The percentage of time worked in this municipality will be computed on the basis of a forty-hour week unless the employer notified the Administrator that a greater or lesser number of hours per week are worked.
 1. The determination of tax liability of non-residents working in and out of the corporate limits is to be computed on the formula of $\frac{\text{the total number of days worked in this municipality}}{\text{the total number of days worked during the year}}$ and the resulting percentage applied to the total annual income from wages including sick leave, holiday pay, vacation pay and other compensation required to be reported as gross pay. Where no record can be substantiated of the number of days worked, the figure 260 is to be used as the total number of days worked.
 2. For purposes of determining the tax liability of professional truck drivers, a flat percentage of ten percent (10%) will be used as the percent of time in this municipality, provided the wages were withheld correctly and all the necessary supporting documents required by the Administrator are attached to the return.
7. An employer shall withhold the tax on the full amount of any advances made to an employee on account of commissions.
8. An employer required to withhold the tax on compensation paid to an employee shall in determining the amount of which the tax is to be withheld, ignore any amount allowed and paid to the employee for expenses necessarily and actually incurred by the employee in the actual performance of his services, provided such expenses are incurred in earning compensation, including commissions, and are not deducted as a business expense by the employee under Article III of these regulations.
9. An employer whose records show that an employee is a non-resident of this municipality and has no knowledge to the contrary, shall be relieved of the

Village of Ansonia, Ohio
Income Tax Rules and Regulations

responsibility of withholding the tax on personal service compensation paid to such employee for services rendered or work done outside this municipality by such employee, provided, however, that such employer must withhold the tax on all personal service compensation paid such employee after the Administrator notifies said employer in writing that such employee is a resident of this municipality. All employees are required to notify the employer of any change of residence and the date thereof.

10. An Ansonia, Ohio employer required to withhold the tax from an Ansonia, Ohio resident for work done or services performed in another municipality, and who does so withhold and remit to such other municipality, shall be relieved from the requirement of withholding the Ansonia, Ohio tax from such Ansonia, Ohio resident, except where the rate of tax for such other municipality is less than the rate of tax imposed by this ordinance. In such case the employer shall withhold and remit the difference to this municipality.
11. No person shall be required to withhold the tax on the wages or other compensation paid domestic servants employed exclusively in or about such person's residence, but such employee shall be subject to all of the requirements of the ordinance.

B. Return and Payment of Tax Withheld and Status of Employers.

1. The deductions from qualifying wages and other compensation required to be made by employers are to begin with the compensation earned on and after the effective date of the ordinance. The employer (in addition to any return required to be filed with respect to his own earnings or net profits) shall, on or before the last day of the month next following each quarterly period, make a return and pay to the Administrator the full amount of the tax so deducted or withheld with respect to compensation paid all of his employees subject to the tax under the ordinance. Provided, however, the Administrator may require an employer to remit withholding taxes at more frequent intervals. The return required to be filed under this article shall be made on a form furnished by or obtainable on request from the Administrator.

a. The employer shall report the gross wages and remit the tax on the following criteria to the Administrator:

.1 If the tax liability of the qualifying wages is one thousand dollars (\$1,000.00) or greater per month, the employer shall make and pay the tax to the Administrator on a monthly basis. Such filing shall be made and paid on or before the 15th day of the month following such withholding.

2. If the tax liability of the qualifying wages is less than one thousand dollars (\$1,000.00), the employer may make and pay the tax on a quarterly basis. Such filing shall be remitted thirty (30) days after the end of the quarter.

.3 The Administrator may revoke the approval of quarterly filing and payments whenever he/she has reason to believe that the conditions for granting such authorization have changed, were judged incorrectly, were not
